Mark,

Do you have the scribe files from the removal at Lane Plating or do you know how to get them? I am putting the data files together for EA so they can review them and incorporate the previous sampling results into the work plan. Please let me know if you have anything that I should give them.

I think this site will go to one of the new RPMs sometime in October. I'll let you know when that happens. That is why we delayed the public meeting.
